**Submitted to:**

University Grants Commission  
Sanothimi, Bhaktapur

## **ACKNOWLEDGEMENT**

We are thankful to University Grants Commission (UGC) Nepal for valuable evaluation to our campus for Accreditation of our quality. We appreciate the efforts of our teaching and non-teaching staff in this regard. The campus Administration formed a Tracer Study team to get the feedback of our students who completed their graduate and postgraduate degrees in 2017. We have followed the guidelines and questionnaire provided by UGC, Nepal. We also appreciate our students for their valuable inputs and suggestions for the preparation for this report.

We acknowledge the assistance provided by the guardians and well-wishers during the preparation of this Report. We are thankful to all who have supported us in this regard directly or indirectly. We appreciate the efforts made by Padam Ghimire, Juda Khadka, Tulashi Phuyal, Tom Nath Dahal, Prem Kuwar and the Technical Assistance Nabin Dhungana in collecting and processing the data. Without their constant efforts this study would not have been possible.

Campus Chief  
Damak Multiple Campus  
Damak, Jhapa

## EXECUTIVE SUMMARY

Damak Multiple Campus, one of the leading public academic institutions in the country, has its own reputation in the national scenario. It was established in 2038(B.S.) with introduction of Management Faculty. In a short span of time, it has updated not only its infrastructures, but also other physical facilities and academic qualities. At present the campus has introduced various academic programs like MBS, MA, BBA, BCA, BSW, BBS, BSC, BA, and BED etc. to meet the expanding demands of present days. Besides academic programs, the campus focuses on other curricular and personality development activities for all round developments of the students. With the advent of UGC, Nepal in 2068 BS, the campus has emerged as an academic hub in the eastern region. It has also brought radical changes almost in all the aspects of the institution. DMC has been successful to win the heart of the public in general and its stakeholders.

Thus, it is imperative for the campus to carry out surveys and prepare a tracer study report to find out the overall performance of its graduates in their respective fields and workplaces. Damak Multiple Campus has already conducted this kind of tracer study previously, and this is a continuation the same. The present tracer study of its graduates was conducted in 2017 AD (2074 BS) with the objective of finding their employment status. The study reflects the relevance of its programs and the status of quality. It is also helpful in enhancing their skills and efficiencies which results in fulfilling the requirements of the expanding job markets. In the same vein, it sheds light on the teaching-learning processes and provides an opportunity for further reforms.

The Tracer Study encompassed the graduates of all the faculties: Management, Science, Humanities, Education, and the Master's Degree graduates of the Faculty of Management and Humanities (ECO.). The total number of graduates in Bachelor and Master's levels was 216. The tracer study team made a survey of 197 students: BBS 87(Male 32 + Female 55), BA 04 (Male 03 + Female 01), Science 46 (Male 31 + Female 15), Education 35 (Male 08+ Female 27 MBS 24 (Male 13 + Female 11), MA (Male - 01). The survey team collected information based on their participation in the study. The students filled out the tracer study forms and submitted to the campus.

A five-member team, comprising both teaching and non-teaching staff, prepared the Tracer Study Report. The team carried out the study by applying the survey questionnaire provided by the UGC, Nepal as an approach for data collection. The reflection of the questionnaire included the number of total graduates, the status of employment, job categories, and their experiences at DMC etc. Of the total traced students, 52.28% (80 FS + 23 E&F) students were continuing their further studies, 29.95 % students were involved in public and private sectors, 9.14 % were in government sectors, and 2 students were posted in NGO / INGOs. Similarly, 01 student was self-employed and 5 were posted in government sectors. The study found that 37 students (18.78%) were unemployed, 71 students (89.87 %)( 56 E +23 E&F=79) had full-time jobs and 8 students (10.12%) had part-time jobs.

In total, there were 89 male and 108 were female participants. Likewise, the number of participants from Bachelor Level was 172 (Male 74- Female 98), and 25 (Male 14- Female 11) participants from Master's Level. There were 56 graduates who were employed, while there were 23 graduates who were pursuing further studies with employment. The number of students who were involved only in studies was 80 and 1 self-employed graduate. 37 were completely

unemployed. Among all the faculties, the highest number of employed graduates was from Management Faculty. The total number of EDG students was 16, and there were only 6 students belonging to the Dalits category.

Similarly, the ethnic categories analysis shows that the highest number of graduates belonged to Brahmin/Chhetris- 132 (67.00%) category in all the faculties, followed by Janajati/Others - 47 (23.85%) group. Only 6 (3.04%) Dalits were found in the study, and 16(8.12%) students in EDJ group.

So far as different age-groups of the graduates are concerned, the largest number of students was found in between 21-23 years age-group. Their number was found 110 (55.83%). This age group was followed by (24-28) age-group 64 (32.48%). Likewise, 21 students were in the (29-33) age-group. Only one student was found in (34-41) age- group and one student was found very senior. He was 49 years old when he completed his Bachelor Degree.

The Tracer Study Report has been organized in five sections: (a.) Introductory Section (b.) Data Presentation and Analysis (c.) Findings of the Study (d.) Implications to the Institutional Reform, and (e.) Conclusion and Recommendations. In the Introductory Section, the background of the tracer study, its rationale and objectives have been described. It also discusses the approach applied in the process of data collection and its analysis. The Second Section presents the data collection and its analysis. It includes the status of employment, job categories, job experiences of the graduates, the relevance of present programs offered by the campus, and related issues. The Third Section sums up the major findings of the study: the number of the graduates in 2017 (AD) from various faculties, and their employment status etc. The Fourth Section deals with some of the implications to institutional reforms. The Final Section is the conclusion drawn by the team after the study. It provides some recommendations for further improvements as per the feedbacks of the students.

**23-22**

### **MAJOR FINDINGS OF THE STUDY**

3.1 Employment Status of the Graduates:	23
3.2 Issues Related to the Quality and Relevance of Programs:	23
3.3 Implications to Institutional Reform:	24
3.4 Conclusion and Recommendations:	24

## **CHAPTER: ONE**

### **1.1 Introduction:**

The strength of any academic institution relies on its faculties, programs offered, research activities, extra-curricular activities, trainings, outreach programs, and proper co-ordination among its stakeholders etc. With this purpose the tracer study was conducted to identify the institution's strengths and shortcomings so that it can keep pace with the present day market demands and further improvements can be achieved. The campus carried out the tracer study of the graduates of both levels who completed their degrees in 2017 (AD). The main focus of the study was to find out the status their results and the employment status. It is helpful to review and evaluate the relevance of programs being offered to the students to maintain its academic standards. The campus has maintained individual profiles of its graduates. The study provides valuable suggestions to make learning-teaching processes effective and better. This kind of task helps the campus realize its impact on society, quality education, and realization of its products in the related fields. Out of 216 graduates, 197 graduates were included in the study from Bachelor (172) and Master's (25) levels.

The Tracer Study Report sums up the important feedbacks provided by the students. So far as the approaches are concerned, the questionnaire provided by the UGC, Nepal was used to collect data of the graduates who had completed their respective levels and also their employment status. Some difficulties were faced by the team as all the respondents didn't submit the survey forms to the team / campus. Similarly, there was a certain amount of inability of gathering information due to their residing locations in remote mountainous regions and unavailability of their contact numbers.

This introductory section encompasses the background of Damak Multiple Campus, rationale and objectives of the study, data collection and analysis, scope and limitations, findings, implications to institutional reforms, the conclusion and recommendations.

### **1.2 Background / Rationale:**

DMC was established in 2038 B.S. with its affiliation to TU with the objective of providing higher education in the local area. It was founded as a community campus to meet the needs of higher education in Jhapa, eastern Morang, southern Ilam and Panchthar districts. In the beginning phase, the campus introduced the Faculty of Management (Intermediate level). The H.S.E.B. program (+2) in Science was introduced in 2056, and later on the Faculties of Education, Management, and Humanities were introduced. Gradually, the campus expanded Bachelor Level programs in all the faculties- BBS / B.Com. (2045), BA (2050) , BSC (2061), MA (2061), BED (2063), MBS (2065 ) BSW ( 2075 ), BCA ( 2075 ) and BBA (2075 )

Damak Multiple Campus has been continuously expanding new academic programs to meet the demands of job markets. This is the reason that the catchment area of the campus is ever

expanding and it is one of the most sought-after public academic institutions in the eastern region. The frequent visits of public campuses from remote areas to make a study of Damak Multiple Campus show its impact. The campus provides both theoretical and practical knowledge and trainings to the students. It is providing interdisciplinary education to the students to develop professionalism and leadership through its innovative and creative services. Damak Multiple Campus is fully committed to promoting and maintaining academic excellence in the eastern region. For this purpose, the campus has managed new technologies and innovations in the classrooms for effective delivery of learning-teaching processes.

The Tracer Study was made with the focus on collecting accurate information regarding the status employment of its graduates in 2017. The study provided an opportunity to identify the quality and relevance of higher education in the job markets, their working conditions, the fields of their work, and job satisfaction etc.

### **1.3 Objectives of the study:**

The major objective of the study was to trace the graduates to find out their employment status as well as their performance level at workplaces and to maintain official relationship with the Alumni of the campus. The other specific objectives of the study are as follows:

- i. Identify the status of graduates of Bachelor and Master level programs
- ii. Analyze the work place performance level of employed graduates
- iii. Get feedback for the betterment of the institution
- iv. Understand the different ways in which graduates learn about job opportunities as well as entrepreneurship prospects
- v. Understand the need to modify existing policies and develop new policies to adapt to the changing environment
- vi. Set a mechanism of identifying its products involved in jobs, further studies, their own business and their interests of involvement
- vii. Find its academic standard in the regional and national levels
- viii. Evaluate the quality and relevance of higher education programs.

### **1.4 Institutional Arrangements to Conduct the Study:**

The Campus formed a Task Force to carry out the survey of the students. The team comprised of teaching and non-teaching staff of DMC. The team collected the primary data, extended social networks, contacts, and got assistance from its Alumni Association. It extended the personal contact to the graduates. Then, the completed study was overviewed and monitored by HERP Secretariat. The survey team accomplished the consigned task within a time frame.

### **1.5 Data collection- instruments and approach**

The data was collected by applying a survey method by the tracer study team. It was carried out with the help of the questionnaire provided by the UGC, Nepal. The questionnaire that contained various information, personal details, and contact numbers was provided to the respondents by

the members of the team to gather information from the graduates in 2017. The number of the respondents was divided into various sections: number of respondents, gender, ethnicity, work places, employment category, employers, and pursuing further studies etc.

### **1.6. Methodology:**

The methodologies applied for data collection included: questionnaire, telephone contacts, personal interviews, home visits, e-mails, personal contact, and online survey etc. The provided questionnaire was designed to collect information of the areas given below:

- i. Impact of research and trainings on personal, professionalism, and developments
- ii. Employment status
- iii. Job categories and satisfaction
- iv. Students' experiences and trainings at Damak Multiple Campus
- v. Relevance of their courses and suitability for job placement

### **1.7. Scope and limitation of study:**

The study was conducted within six months after the publication of their results. The team received the filled out questionnaire form from the students. But the expected responses couldn't be achieved as some of the students didn't submit the form due to various factors including their reluctance, changing residential circumstances, and lack of telephone contact etc. One hundred and ninety-seven (197) students completed and submitted the questionnaire form to the team / the campus. A substantial number of male (89) and female (108) graduates ardently responded to the questionnaire. The scope of study was wider as the study was done of the students who were working inside the country at various work places. The study was limited to:

- i. The study was conducted in 2017 of the graduates
- ii. The total number of students who participated in the study was only included ( i.e. 197)
- iii. Those who didn't submit their transcripts to the campus were not studied
- iv. The study covers expectations of the graduates after choosing particular program and how far their expectations are met

## CHAPTER: TWO

### DATA PRESENTATION AND ANALYSIS:

#### 2.1. The Profile of the Graduates:

The tracer study of the graduates was conducted by a team comprising both teaching and non-teaching staff of Damak Multiple Campus in 2017 (AD). As it has been already mentioned, the total number of the students was 216, and out of which 197 participated in the study carried out by the team. All the students participated in and responded to the study carried out by the team. The number of Bachelor level graduates was -172 (Male 74+ Female 98), and of Master's level was -25(Male 14+ Female 11). There were 16(8.12%) Educationally Disadvantaged Janajati and 6 (3.04%) Dalit graduates.

The tracer study team applied the questionnaire provided by the UGC, Nepal, as a tool for data collection. The questionnaire form was distributed to the students. They submitted the filled-out forms with responses to the study team / campus. In some cases, the team also used other instruments and approaches like e-mails, telephone contacts, home visits, interviews etc. The students' responses have been presented in the following tables and graphs:

Table: 1 Profile of the graduate.

S.N.	Faculty	Total Graduates	Male Graduates	Female Graduates	Educationally Disadvantaged Graduates	
					Educationally Disadvantaged Janajatis	Dalits
Bachelor Level	B.B.S.	92	33	59	8	3
	B.Ed.	42	9	33	7	2
	B.A.	7	5	2	0	0
	B.Sc.	48	33	15	1	1
<b>Bachelor's Total</b>		189	80	109	16	6
Master's Level	MBS	26	14	12	0	0
	MA	1	1	0	0	0
Master's Total		27	15	12	0	0
Grand Total		216	95	121	16	6

## 2.2. The Profile of the Tracer Students:

T.S. = Tracer Study, M.G.= Male Graduates, F.G.= Female Graduates, E.D.G.= Educationally Disadvantage Graduates, EDJ=Educationally Disadvantaged Janajatis, D= Dalits , E= Employed, F.S.= Further Studies, E&F= Employed & Further Studies , S.E.= Self – Employed, U= Unemployed

Table 2: Traced study status

S.N.	Faculty	T.S.	M.G.	F.G.	E.D.G.		E	F.S.	E&F	S.E.	U
					E.D.J.	D.					
Bachelor	B.B.S.	87	32	55	8	3	19	34	18	-	16
	B.Ed.	35	8	27	7	2	9	15	2	-	9
	B.A.	4	3	1	0	0	2	-	1	-	1
	B.Sc.	46	31	15	1	1	7	31	2	-	6
Bachelor's Total		172	74	98	16	6	37	80	23	-	32
Master's	MBS	24	13	11	-	-	18	-	-	1	5
	MA	1	1	-	-	-	1	-	-	-	-
Master's Total		25	14	11	-	-	19	-	-	1	5
Grand Total		197	89	108	16	6	56	80	23	1	37

There were 216 graduates who completed their respective degrees from Damak Multiple Campus in 2017AD. Some of them couldn't be contacted, while others didn't submit the filled out forms to the team / campus. So the study was carried out of only 197 graduates who actively participated in the study. In total, there were 89 male participants and 108 were females. Likewise, the number of participants from Bachelor Level was 172 (Male 74- Female 98), and 25 (Male 14- Female 11) participants from Master's Level. There were 56 graduates who were employed, while there were 23 graduates who were pursuing further studies with employment. The number of students who were involved only in studies was 80. 1 student was found self employed and 37 were completely unemployed. The total number of EDG students was 16 and of Dalits was 6. The highest number of employed graduates was from Management Faculty (46.86%)

### 2.3. The caste -wise composition of tracer study

Table 3: Caste- wise composition of tracer study

		Ethnicity				Total
		Brahmin/Chhetri	Janajati/Other	EDJ	Dalit	
Program Completed	BBS	63	16	8	3	87
	B.Ed.	10	18	7	2	35
	BA	3	1	0	0	4
	B.Sc.	37	8	1	1	46
	MBS	19	5		-	24
	MA	-	1		-	1
Total		132	49	16	6	197

The highest number of graduates belonged to Brahmin/Chhetris- 132 (67.00%) category almost in all the faculties, followed by Janajati/Others -49 (24.87%) group. Only 6 (3.04%) Dalits were found in the study, and 16(8.12%) students belonged to EDJ categories like Tamang, Tajpuriya, and Dhimal etc.

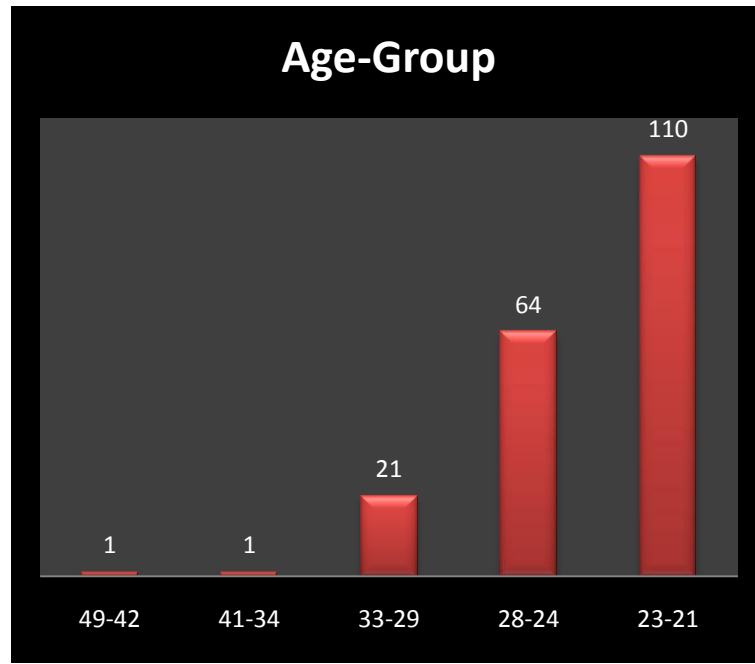

### 2.4 The age-group distribution of the graduates.

Table: 4 The age-group distribution.

Age Group	BBS	B.Ed.	BA	B.Sc.	MBS	MA	Total
Above 42	1						1
41-34		1					1
33-29	3	6	1	-	10	1	21
28-24	19	16	2	3	14		64
23-21	64	12	1	33			110
<b>Grand Total</b>							<b>197</b>

Figure 1 : The age-group distribution.

The largest number of students falls in between (21-23) age-group. Their number was found 110 (55.83%). This age group was followed by (24-28) age-group 64 (32.48%). Likewise, 21 students fall in the (29-33) age-group. Only one student was found in (42-49) age- group and 1 student was found very senior. He was 49 years old when he completed his Bachelor Degree. The students of Master's Degree were found much senior in the age-group analysis study. They belonged to 29- 33 and 24-28 age-groups. Some graduates of Bachelor level also belonged to the same age-groups.

#### 2. 4. Employment Status of the Graduates:

P.T.=Part Time, F.T.= Full Time, E+F.S= Employed +Further Study, E.=Employed

Table 4: Employment Status of the graduates.

S n	Facult y	Employment Status							Sectors					
		M	F	T	P. T	F.T	Total (E+F.S)	Only E	Self E	Private / NGO/INGO	P.	G.	S.E	T
1	B.B.S.	16	21	37	4	33	18	19	0	31(2 NGO)	1	5	0	37
2	B.Ed.	3	8	11	-	11	2	9	0	6	0	5	0	11
3	B.A.	2	1	3	-	3	1	2	0	2	0	1	0	3
4	B.Sc.	8	1	9	2	7	2	7	0	7	0	2	0	9
5	M.B.S.	11	7	18	2	16	-	18	1	11	3	4	1	18
6	MA	1	-	1	-	1	-	1	0	0	0	1	0	1
Total				79	79		79		1	79				

The tables and figures show the employment status of traced graduates who completed their Bachelor and Master's levels from Damak Multiple Campus in 2017.

Most of the graduates were employed in the private sectors. Among all the programs, the highest number of graduates (i.e.31-2 = 29) from the Management Stream was employed in the private sector. There were 33 students were full-time job holders and 4 graduates were part-time job holders from Management Faculty only. In total, there were 79 graduates employed. Among them, 71 graduates were full-time job holders and 08 graduates were part-time job holders. 04 students were employed in the public sector, 02 students in NGO / INGOs, and 18 were working as civil servants (government jobs). The responses revealed that self-employment was not in priority of their choice. It also shows there were a greater number of opportunities available in the private sector than all other sectors.

## 2.5. Further Study Status of the graduates:

The employment and further study status of the graduates has been shown in the tables.

Table 5: Further study status

Program	Further Study Only			Further Study with Employed		
	Male	Female	<b>Total</b>	Male	Female	<b>Total</b>
BBS	12	22	<b>34</b>	8	10	<b>18</b>
B.Ed.	3	12	<b>15</b>	1	1	<b>2</b>
BA	-	-	-	-	1	<b>1</b>
B.Sc	19	12	<b>31</b>	2	-	<b>2</b>
MBS	-	-	-	-	-	-
MA	-	-	-	-	-	-
<b>Grand Total</b>	<b>80</b>			<b>23</b>		

**Note:-** (Further Study Only = 80 , Further Study with Employed = 23.)

## 2.6. Job Categories / Sectors:

Table 6: Job categories in employment student

Sectors	B.B.S			B.Ed.			B.A.			B.Sc.			MBS			M.A (Eco)		Total	
	M	F	T	M	F	T	M	F	T	M	F	T	M	F	T	M	F		T
Private	14	15	29	-	6	6	2	-	2	6	1	7	6	5	11	-	-	-	55
Public	-	1	1	-	-	-	-	-	-	-	-	-	2	1	3	-	-	-	4
NGO/INGO	-	2	2	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	2
Self Employment	-	-	-	-	-	-	-	-	-	-	-	-	1	-	1	-	-	-	1
Government	1	4	5	3	2	5	1	-	1	2	-	2	3	1	4	1	-	1	18
<b>Total</b>	<b>37</b>			<b>11</b>			<b>3</b>			<b>9</b>			<b>19</b>					<b>1</b>	<b>80</b>

Note: E=79 and Self E=1 (79+1=80 Employed Students)

Out of the 172 Bachelor graduates and 25 Master's level graduates, 80 students were employed including one self-employed graduate in various sectors. Among them, 31 graduates were involved in the private sector and NGO/INGOs, 04 were in the public sector, while 18 students were in the government jobs. The figure of employment has been found higher from Management Faculty -37 (46.25%). There were 37 unemployed graduates and 103 of them were pursuing further courses along with employment. There were 80 graduates involved only in studies. Some of them reported that they were preparing for jobs.

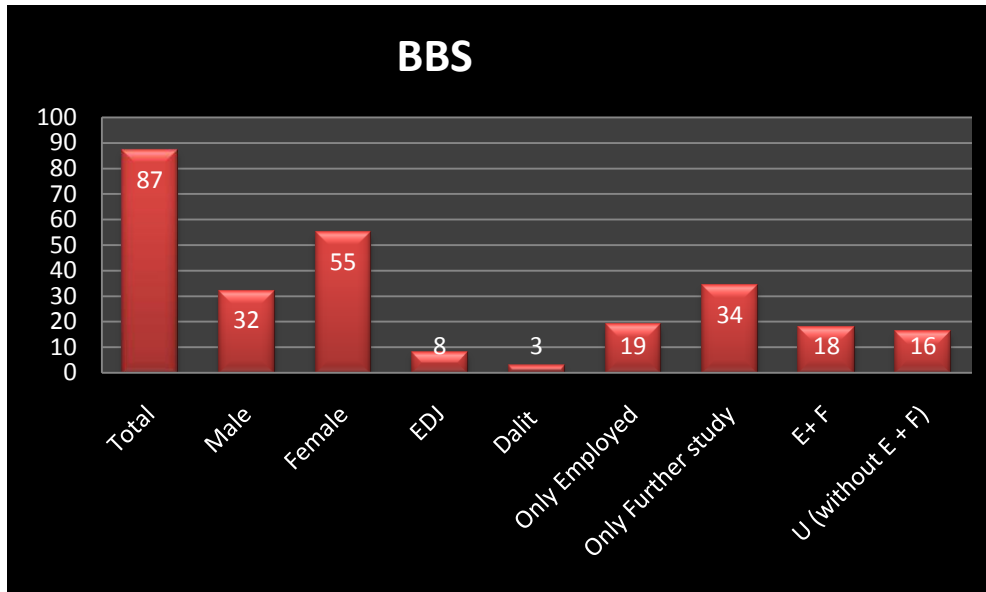

## 2.7 Faculty-wise Analysis:

### 2.7.1 Faculty of Management (Bachelor Level)

Among the 92 graduates from Faculty of Management, only 87 of them could be approached, and 5 graduates could not be contacted by any means. The number of males was 32 and of females 55, EDJs 8 and Dalits 2. 21.83% of them were only employed, 18.39% were unemployed and 39.08% were employed and were also involved in further studies at different institutions. 34 students of them were found only pursuing their higher studies. The number of graduates who couldn't be contacted was 5. The figure below shows the details related to the graduates of Faculty of Management.

(E+F= employed+ Further Study, U=Unemployed)

### 2.7.2 Faculty of Humanities (Bachelor Level)

There were 7 graduates from Faculty of Humanities involved in the study. Out of which 3 were male graduates and 1 was female graduate. 0 was EDJ graduate and Dalit groups were not involved in the study. There was 1 graduate who was employed and was continuing his further studies.

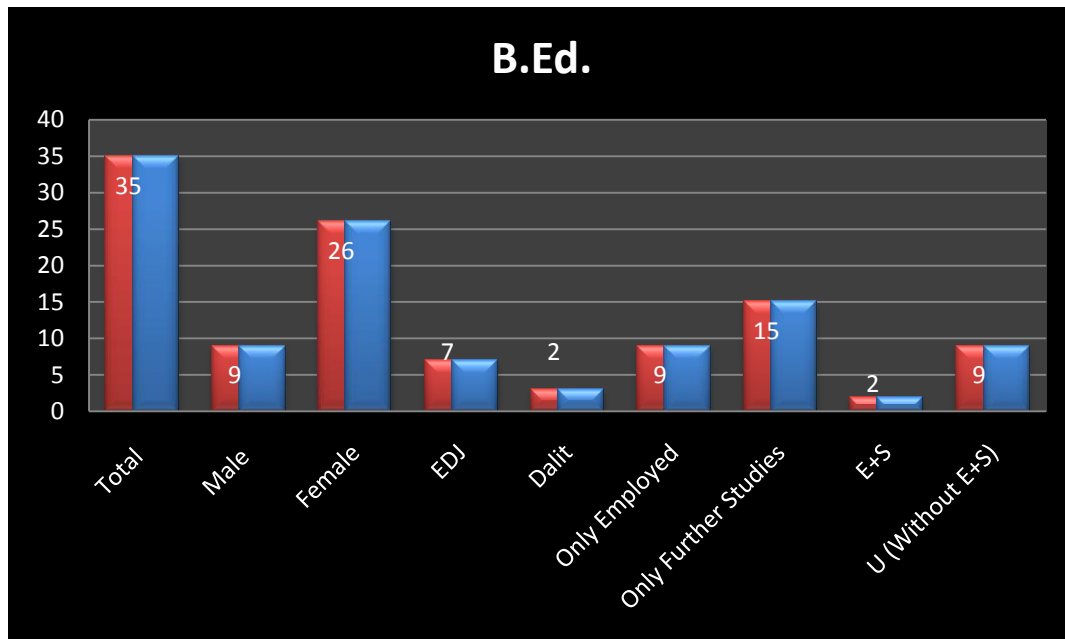

Figure 2: Composition of graduates in humanities

**2.7.3 Faculty of Education (Bachelor Level)**

Among the 42 graduates from Faculty of Education, only 35 of them could be approached. 9 of them were males. The female graduates were 26 and EDJs 7 and Dalits 2. The number of employed graduates from Faculty of Education was 9. Among the 9 employed graduates, 6 were working in the teaching field and 3 were working as assistant level employees in private companies. 2 students were found pursuing their further studies in various institutions along with jobs, while 15 students were involved in further studies only and 9 student were found unemployed. The figure below shows the details related to the graduates of Faculty of Education.

Figure 3: Composition of graduates in education.

#### 2.7.4 Faculty of Science (Bachelor Level)

Among the 48 graduates from Faculty of Science, only 46 of them could be approached, 31 of them were males. The female graduates were 15, and EDJs 1 and Dalits 1. The number of employed graduates from Faculty of Science was 9 (E+E&S). Among the 9 employed graduates, 7 were working in the field of teaching and others were working as assistant level employees in private companies. 31 students were found pursuing higher studies. Two students were found pursuing their further studies in various institutions along with job. The figure below shows the details related to the graduates of Faculty of Science:

Figure 8 : Strengths and weaknesses of campus and campus program.

The tracer study has been found one of the best tools to evaluate and identify the strengths and weaknesses of an institution, learning-teaching activities, and its programs. In course of study, the team asked them some questions related to relevance of the courses for the professional requirements. The highest number of correspondents pointed out that the learning-teaching environment was excellent (28.93%). They enjoyed much freedom which gave them the sense of self-responsibility. They participated in extra-curricular activities actively for their all-round developments. Likewise, they also said that the teacher-student relationship was excellent (29%). They found their teachers open, friendly, and very helpful, while some respondents said that it was very good (22.23%). During the interactions with them, they answered that the quality of delivery was excellent (29.44%). Its quality has enhanced as a result of new techniques and multi-media technology. The participants considered the relevance of its programs for their professional requirements (17.25%), and problem solving skills (18.78%) excellent. And (29.94%) of them said it was very good.

The following tables represent major strengths and weaknesses of the institutional programs. On the basis of the given categories, the quality and relevance of programs have been studied that reflect the strengths, weaknesses, its rating regarding the educational programs, contributions in their academic and personal enhancement. The rating values ranged from 0 to 5 on given particulars:

## 2.9. Effectiveness of Extracurricular activities

Table 9: Extracurricular activities

Extracurricular activities							
Program	Very Weaker	Weaker	Weak	Good	Better	Excellent	Total
BBS	0	7	15	38	17	10	87
BA	0	0	1	0	3	0	4

### 2.15. Quality of Education Delivery

The graduates were queried regarding the quality of education offered to them under various streams. Among the respondents, 29.44 % of them replied that the quality of the education offered to them is excellent, 29.44% respondents replied better, 22 % respondents replied good, 12.5% respondents replied weak, 6% respondents replied weaker, and 1.5 % respondents replied very weaker. The overall quality delivery at Damak Multiple Campus was good enough to meet the requirements of expanding job markets.

## **CHAPTER: THREE**

### **MAJOR FINDINGS OF THE STUDY:**

#### **3.1 Employment Status of the Graduates:**

This section presents the summary of the findings made during the study of all the students of graduate and postgraduate levels. The total number of graduates for the study was 197 in 2017AD. The study found that 80 students were involved in services including 01 self-employed graduate. Of the total number of the graduates, 55(69.62%) graduates were involved in private sectors and 4 graduates (5.06%) were in the public sectors. It was found that while 18 of them (22.78%) were in the government services.

Of the total employed graduates, 71 were full -time employees and 8 of them were part-time employees. The number of graduates who were in teaching profession was 24(Male14-Female10), 44 graduates were employed as assistants (Male 7-Female12). 9 graduates (11.25%) were accountant level employees (Male 5- Female 4) 2 graduates were manager level employees (2.50%).

The study also discovered that 37 students (18.78%) were unemployed. Among the total unemployed students, there were 14 males and 23 females. Out of 197 students, 80 were involved in further studies only and 23 were employed and were also pursuing further studies.

#### **3.2 Issues Related to the Quality and Relevance of Programs:**

The respondents considered the quality of delivery at DMC excellent. Its academic quality has enhanced as a result of new methods and techniques, use of technology and others. The participants considered the relevance of its programs for their professional requirements, and problem solving skills good. They gained academic knowledge along with various skills for solving problems at work places, research skills, and importance of team spirit. Some graduates said that despite gaining knowledge and other skills, their communicative skills were not satisfactory.

In this study, the team found that most of the graduates of bachelor level were desirous to pursue further studies, whereas the graduates of master's degree prioritized to establish their career. Most of the graduates were involved in the private sectors. It shows that the graduates needed better orientations and counseling so that they could critically analyze the career opportunities. The students involved in private and public sectors expect government services if they get opportunities. The graduates from B.A. and B.Ed. programs were found involved mostly in teaching sectors, whereas the students from B.B.S. and M.B.S. were involved in co-operatives and banking sectors. The graduates of science program were employed at hospitals, teaching, and science laboratories. The respondents suggested that the campus should also focus on organizing training courses and promoting field works as well. Further, a huge number of students who were looking for jobs emphasized on practical, job-oriented, and skills developing courses rather than theoretical.

### **3.3 Implications to Institutional Reform:**

The tracer study reflects that DMC should make efforts for the all-round developments of its graduates. The campus should upgrade library facilities and effective delivery of services. The campus should give an emphasis on extra-curricular activities, communicative skills and pedagogical reforms, practical and research-based courses. It should promote learning-teaching strategies and technologies. Likewise, DMC should identify the students' needs and interests which include upgrading various facilities of games and sports, restrooms, common-rooms, canteen, and urinals etc.

### **3.4 Conclusion and Recommendations:**

Damak Multiple Campus has a long history of its contributions in the academic field in the eastern region of Nepal. It has been fulfilling the requirements of competent human resources in various sectors. With the help of its various programs and activities, DMC has developed connections with its stakeholders. It is moving steadily towards achieving a broader goal: transforming education, transforming society. The findings of this study reflect activities that are prioritized at DMC. It has been successful in building a strong foundation of beliefs in the heart and soul of its graduates. The higher range of positive responses of the graduates regarding academic activities and other aspects clearly reflect its image.

The comparative study of programs is helpful to make further changes, institutional plans, and finding important remedies. The study also shows the need of improving some aspects of DMC. These include promoting its academic environment, more relevant and job-oriented courses and programs for meaningful learning, enhancing and promoting its academic quality so that its graduates could meet the requirements of job markets, and address the challenges that appear in later days in their work places. It would help them to find lucrative job opportunities, understand the needs and requirements of national and international job markets.

# Thank You
